

Appendix A. Frequency Tables for ITC Netherlands Four Page Summary

This document presents tables of data which correspond to the ITC Netherlands Four Page Summary. All tables are listed in chronological order of the original document, and present weighted point estimates with corresponding 95% confidence intervals.

“Valid responses” refer to all responses included in the calculation of statistics reported in the Netherlands Four Page Summary, where point estimates excluded item-specific non-responses; the only exceptions to this rule were for income, knowledge-based questions (where “Don’t know” is considered a valid response), or where otherwise explicitly indicated. “All responses” includes all participants, whether the response was a valid response, a non-response (such as “Refused” or “Don’t know”), or whether a response was missing altogether.

Note that for greater comparability, Wave 1-Wave 2 longitudinal comparisons were based on Wave 1 and Wave 2 frequencies for the internet (Computer Assisted Web Interviewing - CAWI) survey sample only. For all other Wave 1 results, total combined frequencies of the telephone (Computer Assisted Telephone Interview - CATI) and internet (CAWI) responses were reported. For international comparisons, Wave 1 telephone (CATI) and Internet (CAWI) responses were reported only for those 18 years of age or older; this was done to improve comparability to all other ITC country surveys, which consisted of adult-only samples, defined by the same age criterion. The Reference Table at the beginning of this Appendix indicates which samples were used for each survey result.

Reference table of statistics cited in the ITC Netherlands Four Page Summary

Report Page #	Report Figure #	Citation	Sample used in report	Appendix Table #
2	Text only	Frequency of smoking	Wave 1 CAWI + CATI	1
2	Text only	Mean number of cigarettes smoked per day among daily smokers, by country	18+ Wave 1 CAWI + CATI	2
2	Text only	Whether smokers smoked manufactured or roll-your own cigarettes, by age	18+ Wave 1 CAWI + CATI	3a
2	Text only	Whether smokers smoked manufactured or roll-your own cigarettes, by survey mode	18+ Wave 1 CAWI + CATI	3b
2	Figure 1	Whether smokers smoked manufactured or roll-your own cigarettes, by country	18+ Wave 1 CAWI + CATI	4
2	Text only	Whether smokers have ever attempted to quit smoking	Wave 1 CAWI + CATI	5
2	Text only	Smokers' intention to quit in the future	Wave 1 CAWI + CATI	6
2	Text only	Whether smokers agree that the government should do more to help smokers give up smoking	Wave 1 CAWI + CATI	7
2	Text only	Percentage of smokers who quit smoking since last survey date, wave 2	Wave 2 CAWI	8
2	Text only	Percentage of smokers who made a serious quit attempt since last survey, wave 2	Wave 2 CAWI	9
2	Text only	Percentage of smokers who were more likely to quit smoking because of the smoking ban, wave 2	Wave 2 CAWI	10
2	Text only	Percentage of smokers who attempted to quit smoking because of the smoking ban, wave 2	Wave 2 CAWI	11
2	Text only	Percentage of smokers who cut down smoking because of the smoking ban, wave 2	Wave 2 CAWI	12
2	Text only	Percentage of smokers who thought about quitting smoking because of the smoking ban, wave 2	Wave 2 CAWI	13
2	Text only	Whether price of cigarettes was a reason smokers thought about quitting smoking, wave 1	Wave 1 CAWI	14

Reference table of statistics cited in the ITC Netherlands Four Page Summary (continued)

Report Page #	Report Figure #	Citation	Sample used in report	Appendix Table #
2	Text only	Whether price of cigarettes was a reason smokers thought about quitting smoking, wave 2	Wave 2 CAWI	15
2	Text only	Frequency that smokers thought in the last month about money spent on cigarettes, wave 1	Wave 1 CAWI	16
2	Text only	Frequency that smokers thought in the last month about money spent on cigarettes, wave 2	Wave 2 CAWI	17
2	Text only	Whether smokers spent essential household money on cigarettes, wave 1	Wave 1 CAWI	18
2	Text only	Whether smokers spent essential household money on cigarettes, wave 2	Wave 2 CAWI	19
3	Figure 2	Percentage of smokers who noticed smoking at last visit to a restaurant, before the Dutch public smoking ban	Wave 1 CAWI	20
3	Figure 2	Percentage of smokers who noticed smoking at last visit to a restaurant, after the Dutch public smoking ban	Wave 2 CAWI	21
